Integrated Vegetation Management for Resilient Lands Decision Record & Finding of No Significant Impact Errata

After publication of the Decision Record in ePlanning on March 2, 2022, the Medford District discovered the following error on the cover page of the Decision Record and Finding of No Significant Impact as follows:

The NEPA number on each cover page is incorrectly labeled as:

“DOI-BLM-ORWA-M000-2019-0001-EA”

The correct number for these documents is in **purple** below:

“DOI-BLM-ORWA-M000-20**20**-0001-EA”

This Errata does not affect any alternative considered in the EA, nor does it change the effects analysis. This Errata merely corrects the NEPA number for this project.
